

Base/aceleracao.h

```
graph TD; A[Base/aceleracao.h] --> B[iostream]; A --> C[fstream];
```

The diagram illustrates a header file hierarchy. At the top is a box labeled 'Base/aceleracao.h'. Two blue arrows point downwards from this box to two separate boxes below it, labeled 'iostream' and 'fstream'. This indicates that 'Base/aceleracao.h' is a base header that includes or defines components for both 'iostream' and 'fstream'.
