

Interface/gerenciador
_evento.h

```
graph TD; A[Interface/gerenciador_evento.h] --> B[SDL.h]; A --> C[evento.h]; C --> D[iostream];
```

The diagram illustrates a header file dependency structure. At the top is a grey box labeled 'Interface/gerenciador_evento.h'. Two blue arrows point from this box to two white boxes below it: 'SDL.h' on the left and 'evento.h' on the right. A third blue arrow points from 'evento.h' down to a white box labeled 'iostream'.
